SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

Tornados, El Dorado, and Stanislaus Counties

- There were tornado warnings in El Dorado and Amador Counties on Thursday, December 24, 2015. Reports of a tornado were confirmed in El Dorado County and the National Weather Service (NWS) rated it as a EF1. NWS, said the tornado touched down in the Browns Ravine area and damage was reported in the area of Hill View Hidden Acres and Mormon Island drives, south of Green Valley Road, in El Dorado Hills about 3 p.m. and moved eastward also touching down in Cameron Park. Damage assessments will continue today.
- El Dorado County Sheriff stated that there were only a few reports for minor roof damage (blown off shingles) and one down telephone pole. There were no reports of any injuries.
- NWS is investigating a second possible tornado touchdown in Modesto. NWS Storm Assessment Teams are expected to check the scene today where a reported tornado pulled down power lines on Floyd Avenue and Coffee Road, Thursday afternoon.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- Hard Freeze Warnings in effect through 0900 Saturday for the North Coast with temperatures in the upper 20s to near 30 at the immediate coast and middle to upper 20s away from the immediate coast
- Freeze Warnings in effect for most interior San Francisco and Monterey Bay locations through 0900 Saturday. Lows Saturday and Sunday mornings are forecast to be in the 20s to lower 30s for many spots away from San Francisco Bay and the coast.
- Hard Freeze Watch in effect through Sunday morning for east-southeastern Central California with temperatures expected to be in the low to mid 20s.
- High pressure building over the Great Basin will bring periods of strong and potentially damaging north to northeast winds across Southern California late tonight into Sunday morning.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Rain and snow showers will diminish today as high pressure builds. This will bring very cold overnight temperatures for tonight. Another system is bringing a chance for light rain and snow Sunday and Monday.

Medford Weather:

The snow level is expected to remain at around 1000 to 1500 feet this morning with the greatest coverage of showers/snow showers at west and northwest facing slopes of the coastal range. A few flurries will also be favored over Siskiyou summit. Skies will clear this evening with temperatures dropping significantly. Nearly all of extreme Northern California is expected to have freezing temperatures early Saturday.

Reno Weather:

Isolated to scattered light snow showers remain possible today. Fresh snow cover will lead to widespread cold temperatures today through the weekend. A weakening storm will bring light snow showers Monday.

San Francisco Weather:

Isolated to scattered showers will remain possible over mainly coastal portions through today with snow showers possible in the higher elevations. Dry conditions are then expected tonight into Sunday with widespread freezing temperatures likely away from the immediate coast and bays during the late night and early morning hours. Light rain is again possible Sunday into Monday as a weak weather system passes.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

A few lingering showers today mainly over the mountains then dry the remainder of the weekend most areas. A slight chance of light rain or mountain snow can be expected Sunday night and Monday with continued low snow levels.

Hanford Weather:

A cold storm system will slowly exit Central California today with some lingering mountain snow showers down to around 2000 feet. Dry weather is expected in the wake of this storm this weekend with widespread sub-freezing minimum temperatures in the San Joaquin Valley.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A cold storm system will move to the east today bringing an end to any rain showers and mountain snow showers. Strong and gusty northwest to northeast winds are forecast for later today through Sunday morning. It will remain very cool through Sunday. A weak trough may bring some showers to northern areas on Monday. Dry and seasonably cool weather is expected Tuesday through Thursday.

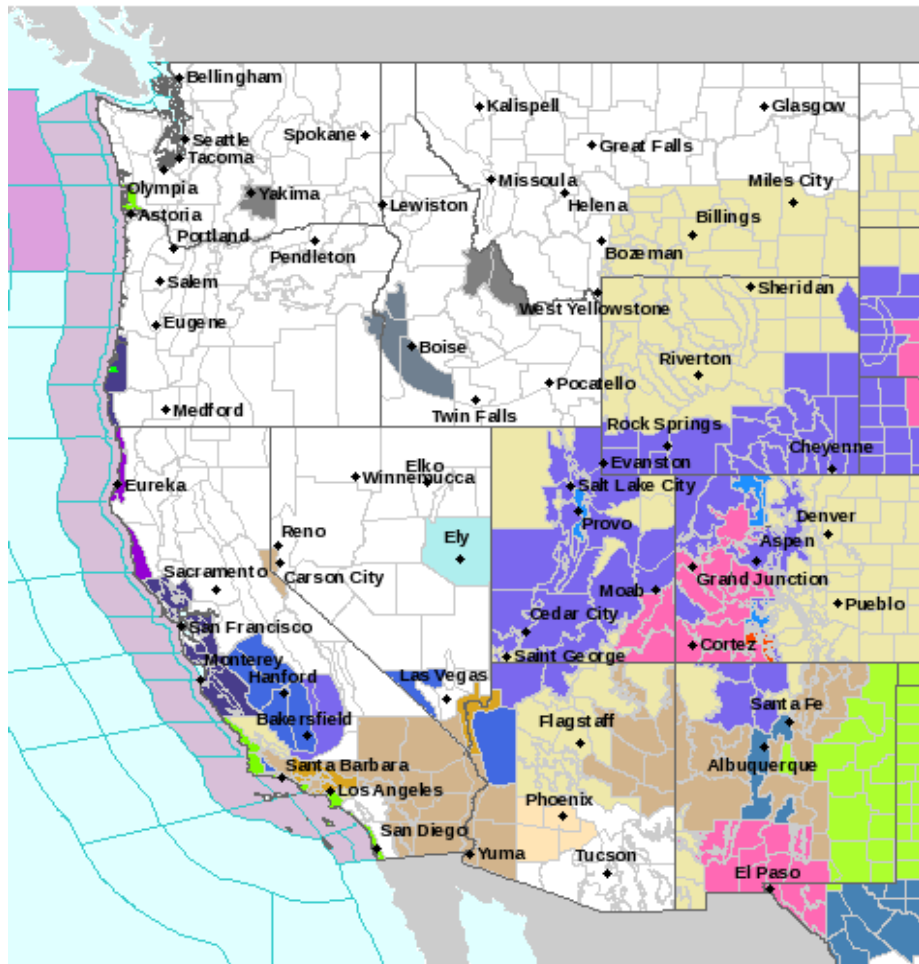

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Scattered showers and gusty west winds will decrease this morning as a low pressure system moves inland into the southwest States. For late tonight into Saturday night, strong gusty north to northeast winds along coastal mountain slopes and adjacent areas will spread southward across far Southern California, weakening Sunday. Nights will be cold for wind sheltered areas with slow daytime warming through the weekend.

Southeast California Weather:

Lingering moisture will still result in isolated snow showers over the higher elevations of the southern Great Basin today on the back side of a cold storm system. Gusty north winds will develop late tonight into Saturday morning and last into Sunday especially in the Colorado River Valley. A hard freeze will be possible Sunday morning in some lower Mojave Desert elevations. Generally dry conditions with a moderating trend are expected for the close of the year.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought
